

BRYCE DREYER

dreyerb@oregonstate.edu ◇ bryce.b.dreyer@gmail.com ◇ 971 430 8192

EDUCATION

Oregon State University

September 2025 - Present

Undergraduate, Electrical Engineering

Glencoe High School

September 2021 - June 2025

Valedictorian, Honors Graduate

TECHNICAL STRENGTHS

Computer Aided Design

Autodesk Fusion 360, Onshape

PCB Schematic and Board Design

Fusion PCB

Verilog Coding for FPGA

Tang Nano 9k Toolchain

EXPERIENCE

Research Assistant

October 2025 - Present

Collaborating with Dr. Pooya Tadayon (retired Intel Fellow) on a novel socket design. Project involves drawing designs in CAD, analyzing electromagnetic fields in Ansys HFSS, and testing cross-talk and other performance metrics using SPICE.

Oregon State University Chip Lab

September 2025

Selected for an exclusive opportunity to attend a one week course in the summer, detailing semiconductor manufacturing process with daily lectures and labs.

High School Senior Design Project

June 2024 – May 2025

Designed a carbon fiber robot in Fusion 360, created a custom brushless DC motor controller and a system motherboard using Fusion PCB. Robot utilizes an FPGA, Orange Pi and ESP32 for functionality.

FIRST FRC Robotics Team Shockwave (4488)

September 2020 – June 2025

Competed as part of Glencoe High School's FIRST robotics team: 4488 Shockwave for five years. Promoted to Lead Electrical and Captain (2024 - 2025)

RELATED COURSE WORK

College Courses: DC and Transient Circuits, Discrete Signal Time Processes, Vector Calculus I

High school AP Courses: Geography, Statistics, Biology, Calculus BC, English Composition

Noteworthy High School Courses: Aerospace CCP Series, Data Science

PAST EMPLOYMENT

HOA Facilities: Pool Maintenance

Summer 2022 & Summer 2023

Responsible for maintaining chemical balance (chlorine, pH, alkalinity) and filter systems for two HOA pools, and ensuring pools were compliant with state safety codes for residents to enjoy.
