

BRYCE DREYER

dreyerb@oregonstate.edu ◇ bryce.b.dreyer@gmail.com ◇ 971 430 8192

EDUCATION

Oregon State University

September 2025 - Present

B.S. Electrical Engineering (projected 2028)

GPA: 4.0

Glencoe High School

September 2021 - June 2025

Valedictorian, Honors Graduate

TECHNICAL SKILLS

Electromagnetic Simulation for Pin Design

Ansys HFSS

PCB Schematic and Board Design

Fusion PCB

Computer Aided Design

Autodesk Fusion 360, Onshape

Entry-level Verilog Coding for FPGA

Tang Nano 9k Toolchain

Other Tool Experience

Python, ST Motor Toolchain, HTML, LT SPICE

PROJECTS & EXPERIENCE

Research Assistant

October 2025 - Present

Collaborating with Dr. Pooya Tadayon on a novel socket design. Project involves drawing designs in CAD, analyzing electromagnetic fields in Ansys HFSS, and testing cross-talk and other performance metrics using SPICE.

High School Senior Design Project

June 2024 - May 2025

Designed a carbon fiber robot in Fusion 360, created a custom brushless DC motor controller and a system motherboard using Fusion PCB. Robot utilizes an FPGA, Orange Pi and ESP32 for functionality.

FIRST FRC Robotics Team Shockwave (4488)

September 2020 - June 2025

Competed as part of Glencoe High School's FIRST robotics team: 4488 Shockwave for five years. Promoted to Lead Electrical and Captain (2024 - 2025). Responsible for electrical architecture, wiring, and subsystem integration.

Project Portfolio

<https://brycedreyer32.github.io/Website/>

RELATED COURSE WORK

College Courses: AC/DC and Transient Circuits, Discrete Signal Time Processing, Vector Calculus

Advanced High school Coursework: AP Statistics, AP Calculus BC, AP English Composition, Aerospace CCP Series, Data Science

PAST EMPLOYMENT

HOA Facilities: Pool Maintenance

Summer 2022 & Summer 2023

Responsible for maintaining chemical balance (chlorine, pH, alkalinity) and filter systems for two HOA pools, and ensuring pools were compliant with state safety codes for residents to enjoy.
